

A NEW GENERATION OF TIS. A NEW ADVANTAGE FOR YOUR SHOP.

To fix cars right the first time, you need to arm yourself with the latest information. Now ACDelco offers another tool to help you stay on top of the ever-changing automotive service industry. Presenting the next generation of TIS (Technical Information System). TIS 2 Web is an internet based subscription service that's constantly updated. It provides you with GM vehicle calibrations and Tech 2 diagnostic software updates, to save time and help increase profitability.

TIS 2 WEB ADVANTAGES:

- / More current information. Access vehicle calibration information that is constantly updated and always current.
- / Better use of technology. Web-based subscription service connects your shop with remote server. No software or hard-drive space is required.
- / Greater convenience. No waiting for vehicle calibration and Tech 2 updates to arrive on DVD via mail, as in the old system.

EASY, AFFORDABLE SUBSCRIPTION CHOICES FOR INDEPENDENT SERVICE CENTERS
